Barry,

This is a follow up on the progress on the Efficiencies for 2011-12. Can you please provide me with a progress report on efficiencies already flagged in your area? I have appended a summary file which details the submissions as at July this year and would appreciate a return, highlighting progress and any anticipated issues.

You will be aware that our target for the year is £55m overall and we are currently, as the file shows, some way short of this, so could I also ask that you revisit your projections, not only to confirm your original estimates but also to identify any further potential efficiencies ?

If I could please have your returns by 9th of November at the latest.

Regards,

[REDACTED]
